Dear Mr. Weisberg:

With the Philadelphia radio station on almost exactly the same wavelength as our local WHOP - there is a wait until sign-off there at midnight before I can receive WCCA's re-broadcast.

(Had taken a sleeping pill last night - but fought off its effectiveness when I found that Jack was interviewing you, and managed to succeed until 3 AM our time (4 AM your ET). Resented very much the young lady who misquoted the "Report" and indicated some unfair reporting on your part.

I have not found the slightest discrepancy between your reasoning - as opposed - or in connection with the Warren Report. I have both - and use your references to refer to the "Report". It is fantastically unbelievable that this report could be approved and your investigation - with time and "reasonable" factors concerned - makes the Warren Report almost fiction.

I regard your work as most admirable - and wish to express, also, my admiration for your attitude - conduct on Saturday night's program.

It had been told to me that your important "witnesses" in Dallas had met rather violent deaths - which were rather questionable as regards "accident". You mentioned that there were 12 - exactly. This seems to be more than a reasonable quotient. I would suggest that you do another book - which I hope you contemplate - revealing facts other than what the Warren Report

criticism contains

"Coverup" certainly recurs their method, not - as you say - on the part of the appointed commission - but in criticism of their investigators.

It would appear that Tippit & Ruby were involved in some manner with Oswald - if Oswald, indeed, is involved. Mrs. Tippit was given a vast amount of donation - including Zapruder's purchase cost of his valuable film. If he is involved - as surely as Oswald is reputed to be - then I regard Oswald as having been most unjustly accused - by comparison.

With regard to the approval extended by Mrs. Kennedy for a specified writer to have exclusive contact & information with & from certain important witnesses - with the restriction pending - after the first - to go to the benefit of the Kennedy Museum - appears to indicate that there remains something to be told - - or another means of bolstering the funds of the Museum.

While it is not, perhaps, "proper" to admit any failure on the part of the Kennedy family to approve the Warren Report, I cannot see how they would approve it. In fact, immediately after the tragic event, some of my most erudite friends contended it to be the act of "leftists" while Justice Warren immediately cited the Rightists as the culprits. (This would not be the first, nor last, time that he's wrong, forever!)

Please make my name on your order list for any subsequent book on this subject - if one is being contemplated.

Sincerely

On Monday, Oct. 3rd, I managed to hear the major portion of an interview with a young man who is to publish a book under the title "An Epilogue to the Warren Report". I was not at all impressed, although my mind was wide open"! In fact, I concluded that his attitude was too defensive for him to be too sure of himself. He even thought that he had Mr. Mc Kinley convinced — but Mr. Mc K. set him straight on that. I couldn't stay awake to hear the phone calls — but do not doubt that his weakness was revealed. However, his manner differed from his cause — Someone factual + erudite (which I doubt).

Quote in US News + World Report that Arlen Specter does not know the whereabouts of X Rays + photographs of the autopsy. On "Whispers" — Page 8 — these are reported to have been placed in the Kennedy "Archives" by Robert Kennedy — then Atty. General. Protection of the public against gory details — being obvious excuse.

Pardon me for burdening you with correspondence which it is not my intent that you are responsible to reply to. I only wish to assure you that your research bears great import to me and someone should have to come up with something great to convince me otherwise. Monday night's performer on Mc Kinley's show was quite a farce — as I think much of his ilk are.

Sincerely
